BEST PRACTICE-1

MOBILE LIBRARY

Goal: Education is the backbone for the progress of society. In promoting education libraries play a pivotal role. It would be difficult to enhance human knowledge or preserve the world's cumulative knowledge and heritage for future generation without libraries. Libraries are the important source of knowledge to every person. Dr S.R. Ranganathan, father of library science, describes the library as the public institution or establishment charged with the care with the connection of books and the duty of making them accessible to those who require to use them. By following this statement of Dr S.R.Ranganathan, Jhanji Hemnath Sarma College takes initiatives to create the college library as a public institution to bring people together to learn and share ideas. As the college is situated in a rural area, the socioeconomic condition of local community is not much better to achieve all types of information. Considering the socio-economic background, the college has developed the concept of mobile library to provide reading facility to interested local people. Through this programme the college also tries to develop reading culture among all sections in rural society. It is also expected that through this programme the value of reading books will be spread.

Context: Modern people are living in the world of materialism. Today, every moment of our life mostly depends on technology. Technology has changed our ways to communicate, socialize and entertain ourselves and it is growing at a rapid pace. Technology offers us various tools to boost development and exchange information. The internet and devices have been dramatically changing the way we consume world. This impact of technology is seen every where and among all sections of people. Therefore, the reading culture which is the most important way to acquire real knowledge is thrown away by us. All things we learn in reading enriches us, encourages us to go forward. Reading improves our focus, memory, empathy and communication skills. It can reduce stress and anxiety that we people that today, improve our mental health and help live longer. Reading also allows to the total stress of the pure today in the provided to the pure today. The total stress of the pure today is to help us succeed in our work and relationships. That is why our college has to the pure today in the provided today in the provided today in the provided today is the provided today.

HANJI HEMNATH SARMA COLLEGE

ESTD: 1964, JHANJI-JAMUGURI, SIVASAGAR, 785683 (ASSAM)

developed the concept of mobile library to bring a revolution of reading culture among all age groups of rural society.

The Practice: As a store house of knowledge, libraries play a great role in the life of a person. Libraries provide everyone access to information and education regardless of socioeconomic status or location. Keeping in mind the importance of library in general and reading books in particular the Library Extension Cell of Jhanji Hemnath Sarma College started the mobile library programme to provide reading facility to local people and to keep a bond between college and community. Therefore, members of Library Extension Cell accumulated some selected books from college library and distributed the books among local people. Every year, members of the cell terminally visit local people and offer the facility of reading books according to their choices. Moreover, the cell members invite interested local people to visit college library so that they can collect books from the library.

Evidence of success: As evidence of success of mobile library programme of JhanjiHemnathSarma College we can state that —

- ➤ This programme encourages local people to come to the college library and help to make an effective environment for reading.
- ➤ This programme helps to create a relationship between the college and the community. A sense of belongingness among teachers, students and parents are created through this relationship.
- > It increases learning opportunities for local people by creating an inclusive learning environment.
- ➤ This effort of the institution also contributes to enhance the information literacy of the local people.

Problems encountered: The educational institutions are also defined as a subsystem of larger system of the society. An institution has to functionally coordinate with its immediate environment, the community in which it is situated. Jhanji Hemnath Sarma College definitely coordinate with the community in all aspects. Through the mobile library programme the college try to develop reading habits by visiting local people. But all people cannot be covered because of time constraint.
